Building Product Information Sheet

Product name (include the brand name):

Topliss Brothers Ultra Varijet 130 Shower Rose

Other product names (variant, sub-variant, functional name, etc. if applicable)

Varijet 130

Product identifier (if applicable):

130/C, 130/W

This could be a Global Trade Item Number (GTIN) or any other distinguishable part/model number or identifier

Product description and its intended use (measurements, materials, usage):

The Varijet 130 is a modern wall mounted brass shower rose with adjustable plastic spray plate. Suitable for all pressures but most useful on medium-high pressure installations where flow rates can be reduced for comfort.
This product is intended for use as a shower head in domestic, commercial and public amenities for the purpose of personal hygiene and/or sanitation.

Relevant Building Code clauses:

B2 Durability — B2.3.1 (c)
 F2 Hazardous building materials — F2.3.1
 G1 Personal Hygiene — G1.3.2 (a)
 G12 Water Supplies — G12.3.2(c)

Statement on how the building product is expected to contribute to compliance:

B2 - Durability - B2.3.1 (c) When installed correctly, this product is subject to durability rating of 5 years. Proof of durability – This product exceeds this requirement evidenced by a service history in NZ of over 30 years with minimal returns from end users.
 F2 - Hazardous Building Materials - F2.3.1 This product is safe when handled and is constructed of materials that will not emit harmful concentrations of substances from exposed surfaces.
 G1 - Personal Hygiene - G1.3.2(a) This product is a sanitary fixture that is constructed and designed to be installed in a way that facilitates sanitation.
 G12 Water Supplies — G12.3.2(c) This product is manufactured as a sanitary fixture and meets the requirements of G12/AS1.

- *options for compliance set out in section 19 of the Act (regulations, acceptable solution, verification method)*
- *standard or technical document that describes the performance of the building product or the relevant specifications to which the building product was manufactured*
- *physical properties of the building product*
- *how the building product is intended to be used.*

Limitations on the use of the building product:

- Suitable for all water pressures.
- To be installed by a registered plumber.

Design requirements that would support the appropriate use of the building product:

This product is designed as a sanitary fixture and hence is not intended for the delivery of potable water.

Installation requirements *(also provide link to the product installation guide):*

This model has a 1/2" BSP internal thread connection and requires the addition of a piece of 1/2" brass nipple tube, cut to length and fitted with thread sealant when fitted to a standard wingback.

Maintenance requirements *(also provide link to the product maintenance guide):*

No maintenance is required aside from cleaning during the normal course of use.
Spray plate can be removed for cleaning if blocked (no tools required).

Is the building product/building product line subject to warning or ban under section 26 of the Building Act 2004?:

Yes No

If yes, description of the warning or ban under section 26:

Version:

Rev 2

Date:

DD / MM / YYYY
19 / 11 / 2025
